

Dear CEVA,

I wanted to inform you about our experiences at the Junior National Volleyball Championships in the Junior Olympics because we finished 1st in our region.

Having the opportunity to represent our CEVA region in Atlanta was a great experience. Our OJVA 14 Gold team was fortunate enough to play against some of the best 14s teams in the nation. We competed well and it was definitely the best competition we have ever experienced. We also took a carriage ride around downtown Atlanta and had the opportunity to go to the Coca-Cola Museum. As it turns out Atlanta, Georgia is the world headquarters for Coke!

By the end of the tournament I felt as if our team had become much closer. Through our challenges on the court and our escapades during our free time, we were able to band together and form much stronger bonds than ever before. I am sure that we will carry our experiences forward into our next CEVA season as a much stronger team. Thanks again CEVA for allowing us to represent our region in Atlanta!

Katarina Moffett
